Interest Centers Chiefly On Congressional Race

With the approach of the Democratic Primary interest in politics in this section centers chiefly in the Congressional races as attention is given to the fact that a vigorous campaign was waged by Jospeh Speight, who, reports indicate, has kept the public's mind on the gall, on the defensive continually.

Challenging the heralded assumption of the banking community during his 15 years in office, Speight fearlessly disclosed the full, ungrimed record of the present Congressmen carrying on their issues straight to the people with such frankness. Steagall is reported to have lost his friends and devotees to most of his campaign speeches to "explain" according to the slogan of the Speight campaign headquarters.

With Steagall's promises of cure, the banking community bank depositors in the future, Speight has reminded the voters that the present Congressmen is and has been for many years a member of the banking and currency committee of Congress and has as yet not introduced any legislation, implying that if he could not provide this protection, he could not be trusted. He has no assurance that he could secure it in another term in Congress.

Without prearranged plans the Georgia and relief program early became an issue in the campaign when Steagall attempted to boast of obtaining a \$14,000 federal appropriation for more than a year after the election. Speight contended that this was not enough to bring about that any Congressmen could be able to secure the appropriation for such a great humanitarian work within the time of the catastrophe.

Because of his remarkable fitness for office and due to the aggressiveness displayed, Jospeh Speight's popularity has mounted continually during the campaign, attendance at his speeches and the slogan: "It's Speight's Time," appears to have not been adopted in vain.

SINGING IN BRUNSWICK

The people of Brunswick and surrounding communities met last Sunday afternoon for the purpose of singing God's praises.

The service was absent, a lesson was led by Alex Strickland, after which the committee presented a short program and the slogan: "It's Speight's Time,"

appeared to have not been adopted in vain.

MISS RENA GOODSON, CHIEF

Dismissed with prayer by Dudley Littleton, we especially want to thank all for their kind presence and invite everybody to our next meeting Sunday, Aug. 12, at 2 o'clock and pray that we may sing a success.

Mrs. Rena Goodson, Sec'y.

DORSEY SEZ:

There's a good reason why more people ride on Goodyear Tires than any other kind. Goodyear is a safe, economical, high quality tire at a minimum price.

ANDALUSIA, July 30.—Benton Tait, Covington County farmer, was struck and killed by lightning Monday afternoon while on his farm near Newell, South Dunn community.

Mr. Tait had been working on his farm, returning home with his family when he stopped to shelter from the rain. He had tied his horse to a tree and was standing with his family when a mule made an attempt to break loose, striking Mr. Tait in the head. Mr. Tait went to the floor, unconscious, and died shortly thereafter.

I was in business at Elba for twenty-five years until the flood destroyed my property. Parts of this were washed away and I was compelled to leave the city. I taught bookkeeping in a business college here for two years.

I was born and reared on a farm and have always been interested in my education at the State Normal School at Troy, Alabama, University of Georgia, and Miami Business College.

We are now active engaged in educational work for twenty-five years although since that time I have received several terms on the City Board of Education.

The beauty of the new Ford extends
to the upholstery and appointments
of the interior. The leather seats, the
doors and the attractive inter-
iors, are the result of the care and
attention to little details of trim and finish
which a woman's practiced eye is
quite sure to notice. The car has a
distinctive style which re-
flects the latest in automobile design.
It is built to last. In external things, as
in mechanical construction, the

It's our business to know oils. And when we say that there never has been such a motor oil until now we mean exactly that. For the new Texaco Motor Oil is different from any oil you could ever buy before. It's longer-lasting! It's crack-proof!

And this is why it's different—There were some oils that were dewaxed. There were others that formed no hard carbon. A few others had an exceptionally enduring body.. But no one oil had all the desired qualities. The new Texaco has them all! And because it is crack-proof it will not break down under the terrific heat and pressure developed by the modern high compression engine so as to form hard carbon. Naturally it lasts longer.

The new Texaco is manufactured in five grades: C, D, E, F, and G, corresponding in body to S. A. E. (Society of Automotive Engineers) viscosity ratings. The price is 30c a quart (35c for grade G). The correct grade for your car is ready for you. Drive up to any of our stations.

Mayor Harper Of Geneva Defends Steagall's Record Regarding Flood Control

By Richard L. Simon
ATLANTA, Ga.—More like a statement than a record of modern business achievement reads the story of the flood control efforts of the State of Georgia and the New Scientific Compound which has become the sensation of the drug trade throughout the United States and other countries.

The old illustration of the public drunkard, poor and penniless, is rapidly spreading over the entire American Continent like a plague.

Recently compiled figures reveal that approximately 15,000 men and women are marching into the drug stores daily for Sargon and Saxon Soft Motor Oils, the manufacturing house to manufacture thousands by new and remarkable methods undreamed of only a few years ago. Already more than 5,000,000 suffering men and women have put it to the test and found it to be the best oil ever made, and in a few years time will have sold the entire globe.

Marching in regulation U. S. Army fashion—single file—this vast army of Saxon users would march from New York to San Francisco and all the way across the country, in a few years time.

There can be but one possible explanation for Saxon's amazing success and it can be told in one word—MERIT!

**VOTE FOR SPEIGHT
MEANS BALLOT FOR
BANK LAW CHANGE**

A dozen or more banks have failed in the Third Congressional District. If you are a friend, best means of any law to guarantee or protect the depositors, then vote for Speight.

If you are a farmer and have money to make a crop and bank fails, failed, leaving you with no money to operate on, and you are not getting enough money which you never received, then vote for Speight.

Speight deserves himself to advocate and to work diligently for an amendment or modification of the national banking act so that the depositors will receive damages from payment of mortgages given to him. He will make sure that to the extent of the amount drawn by farmers with interest on such amounts.

Can you expect relief from Congressman Steagall? He has been a man of great concern to the banking and currency which has jurisdiction of the subject, for more than fifteen years. Not only has he been a leader in the protection of farmers, but seems to have abandoned the whole cause of the poor in the economy of the Federal Reserve Bank to protect depositors in favor of a bill to prohibit the use of the Federal Reserve Bank among banks which are members of the Federal Reserve System.

Can you in reason expect relief as a result of his efforts? (Political advertisement by J. J. Speight, Dothan, Alabama.)

"First thing you know, he is to take a look around, see if anything is amiss, then he will go to his bird to the housewif."

The bird depends on a hairy壮士, the prisoner, looking rather sickly, sitting dejectedly in a chair and handed him carefully. Then he turned to the picture.
